

Intensive Study Programme for Students

Recruitment Event

ERASMUS+ KEY ACTION 203
Strategic Partnerships for higher
education

WILD SKILLS EU

With Erasmus+ funding, we will be developing practical wildlife identification and communication courses, which will be taught virtually. These will target current and recently graduated University students, with the aim of providing key skills which are important in the professional market. When distance learning is completed, participants may have the opportunity to join in funded mobility to further develop and strengthen these skills.

Specific equipment and tools will be provided to effectively improve practical skills while joining live learning sessions spread over 6-weeks.

A FREE Zoom Demo

Come and hear some quick examples ('tasters') from these courses and how they will progress your career with nature.

11.00 – 12.00 (CET)

"Nature journals (how to sketch/draw & record nature)"
