ROOM 2040 – 2nd Floor dept. TESAF
May 26 (Tuesday), 2015 from 1 to 2 PM

MANGROVE TREES: LIVING BETWEEN LAND AND SEA

Water storage capacity of Rhizophoraceae mangrove saplings**

Silvia Lechthaler

Rationale/concepts

- Introduction to the fascinating mangrove environment. From forest to tree.
- Investigate how variations in soil water salinity, common in the mangrove environment, affect the water status of young mangrove plants. A Nuclear Magnetic Resonance and dendrometer approach.

Picture: Elisabeth M.R. Robert

* The speaker must offer a cake to the audience to be eaten during the meeting

** Talk in Italian or English depending on the audience
