Seminar

Navigating an Academic Career: tips for PhD students and early career scientists

Prof. Jeffrey McDonnell

Global Institute for Water Security,
University of Saskatchewan, Canada

h. 10:00, Monday 11th November 2019
TESAF Dept. Council room, 3rd floor

The seminar is intended for young researchers (PhD, post-doc, etc.) at the beginning of their career in academia. The seminar will offer useful tips for pursuing a successful career in research, writing papers effectively, and creating a research brand.
